## BIG SPEECH OR BIG BANG: CONTEMPORARY CHRISTIANITY

Createspace, United States, 2012. Paperback. Book Condition: New. Large Print. 203 x 127 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This work reconciles the Bible with frontline physics. Creation is discussed in terms of Quantum physics and it is shown that all energy originates from God whose light is so bright that the sun will not be needed in the new Jerusalem and whose goings are associated with lightnings and thunders and the glowing of Moses s face. Elijah ascended to heaven on a rocket and vortex hybrid. The Lord of the Sabaath, our Lord Jesus Christ suspended Natural Law once again to ascend to heaven. He had done it so many times already: removing all energy from a low pressure system and calming a storm by the power of his mouth, the same way he called all things into being. He turned water into wine- working in particle physics and quarks. He created matter many times in new body parts and in multiplied bread and fish. This book is for the twenty-first century man showing the Bible very up to date and relevant. It displays unmatched design in creation using the eye; surface area to volume concept in exchange membranes of the intestines, kidneys and lungs; molecular machines demonstrated using the blood oxygen carrier hemoglobin; the C4 plants: wheat, barley, sorghum, rice, corn which are designed solar panels that convert solar energy into carbon and feed the world; the T4 virus that generates more torque than a Ferrari; fuel cell technology in you and I and more. The contemporary issues of the church are handled: the seeker-friendly approach, lack of zeal, the need for holiness, abortion, euthanasia, humanity, church growth and other issues. How to become a Christian: salvation, the gifts of the Spirit and...
